

SHARK TANK FINAL PROJECT – 5–7 Minute Presentation Instructions and Rubric

Presentation Purpose

Students will present their project in a Shark Tank–style pitch demonstrating the problem their product solves, the value of the idea, and the technical implementation of their web application.

The presentation should communicate both the BUSINESS IDEA and the TECHNICAL BUILD of the project.

Total presentation time: 5–7 minutes.

Recommended Presentation Structure

Slide 1 — Title Slide

- Product name
- Your name
- Course title
- Short product tagline

Slide 2 — The Problem

- Explain the real-world issue
- Who experiences the problem
- Why the problem matters

Slide 3 — Your Solution

- What your product does
- How it solves the problem
- Why it is unique

Slide 4 — Product Features

- Explain at least three key features of your web application

Slide 5 — Technical Implementation

- Front-End: HTML, CSS, React
- JavaScript: events, rendering, logic

- Back-End: Node.js API routes
- Database structure
- State management (useState, Context, storage)

Slide 6 — Demo

- Show the working application
- Demonstrate key functionality

Slide 7 — Business Value

- Who would use it
- Potential growth or market value

Slide 8 — Conclusion

- Summarize the problem, solution, and key feature

Presentation Requirements

- Speak clearly and professionally
- Demonstrate a working web application
- Explain both idea and technical design
- Stay within 5–7 minutes
- Use visual slides or screenshots

Pitch Style (Shark Tank Format)

- Be persuasive
- Show enthusiasm
- Explain value clearly
- Demonstrate confidence

Grading Rubric (15 Points Total)

Idea and Problem Explanation (3 pts) – Clear explanation of the real-world problem.

Product Features (3 pts) – Features are clearly explained and connected to the solution.

Technical Explanation (3 pts) – Student explains how the web application works technically.

Application Demo (3 pts) – Demo shows the product functioning correctly.

Presentation Quality (3 pts) – Organized slides and confident delivery.

Presentation Timing Tip

- Problem: ~1 minute
- Solution + Features: ~2 minutes
- Technical Explanation: ~2 minutes
- Demo: ~1–2 minutes
